	<b>Statement of Environmental Policy</b>	<b>Introduction</b>

Kemper System America, Inc. is committed to continually improving upon its environmental responsibility and sustainability in the construction and specialty chemical product industry. We are committed not only to the highest standards of quality and service, but also to sound environmental management as a matter of corporate policy. With this policy we are committed to:

- Provide a structure by which Kemper System America, Inc. may assess and reduce its environmental impacts in an efficient manner; allowing the company to continually improve its operations in a responsible fashion.
- Decrease operational costs by becoming more energy efficient and minimizing waste.
- Guard against pollution by selecting environmentally friendly processes and materials.
- Develop a framework to assist in our commitment to comply with environmental legislation, regulations, and with any other requirements to which we are committed.
- Communicate our commitment to the reduction of environmental impacts to our customers, staff, vendors, those working on behalf of the company, and to community as a whole; we aim to promote environmental responsibility in the community by acting as a positive example of responsible manufacturing.

By recognizing the growing importance of environmental impacts we aim to use this management system not only to protect the environment and community, but to aid in securing the long term success of Kemper System America, Inc.

Richard W. Doornink  
Managing Director
